

FOR IMMEDIATE DISTRIBUTION:

SEVONE AWARDED COVETED “TECHNOLOGY START UP OF THE YEAR”

The Eastern Technology Council Recognizes SevOne’s Significant Growth, Innovation and Success.

Newark, DE – December 4th, 2009 – The Eastern Technology Council is the leading trade organization for life sciences and technology leadership, business development, and entrepreneurship in the Greater Philadelphia Region, serving more than 700 member companies.

The “Technology Start up of the Year” award was presented to Newark, DE based SevOne, Inc. on Thursday evening at the 17th Annual Enterprise Awards Dinner. The Enterprise Awards honor the Greater Philadelphia region’s most outstanding technology and life sciences companies.

SevOne provides innovative network performance management solutions to assure uninterrupted IT services. SevOne has successfully competed against the largest computer companies, consistently winning significant awards from world class enterprises, including Comcast, top ten Global financial service firms, top ten Pharmaceuticals, leading manage service providers, and leading health care providers. SevOne wins because its solutions are easier to use, more powerful, and cost significantly less to own and operate. Comcast claims that SevOne reduced their overall performance management cost by 75% while providing complete network and device performance visibility for the first time.

About SevOne

SevOne, Inc. provides an innovative network performance management solution for optimal application delivery across the world’s most complex networks. SevOne’s Performance Appliance Solution (PAS™) is an easy-to-deploy and easy-to-use network appliance, which requires minimal maintenance, training and administration even though

it is highly scalable to manage thousands of devices. It consolidates granular performance data into single customizable dashboard from various sources including NetFlow, SNMP, VoIP, IP SLA, NBAR, and WMI. PAS enables IT staff to lower their total cost of ownership, assure service levels and increase productivity. For more information, visit www.sevone.com or call (302) 368-5650.
