More information on the speakers to come!

Lunch provided by Stephen Starr Catering!

[Space is limited, so attendance is strictly by RSVP]

About The Chemical Heritage Foundation

The Chemical Heritage Foundation (CHF) fosters an understanding of chemistry's impact on society. An independent nonprofit organization, CHF strives to inspire a passion for chemistry, highlight chemistry's role in meeting current social challenges, and preserve the story of chemistry across centuries.

CHF maintains major collections of instruments, fine art, photographs, papers, and books. The Foundation hosts conferences and lectures, supports research, offers fellowships, and produces educational materials. CHF's museum and public programs explore subjects ranging from alchemy to nanotechnology.

CHF | 315 Chestnut Street | Philadelphia, PA 19106 | www.chemheritage.org
