**About The Science Center**

The University City Science Center accelerates technology commercialization, regional economic development, and the market availability of life-enhancing scientific breakthroughs by bringing together innovations, scientists, entrepreneurs, funding, laboratory facilities, and business services. Established in 1963 and headquartered in Philadelphia, PA, the Science Center was the first, and remains the largest, urban research park in the United States. Graduate organizations and current residents of the University City Science Center's Port business incubators have created more than 15,000 jobs that remain in the Greater Philadelphia region today and contribute more than \$9 billion to the regional economy annually. For more information about the Science Center, go to [www.sciencecenter.org](http://www.sciencecenter.org).
