Adventures in Entrepreneurialism:

Greg Bentley, CEO
Bentley Systems

Before they had offices in more than 45 countries and annual revenues surpassing \$500 million, Bentley Systems was a startup company in the Science Center incubator.

Join us in welcoming Greg Bentley back to the place where Bentley Systems got its start and learn how the company continues to play a major role in the regional entrepreneurial ecosystem. Mr. Bentley will share the company's experiences both at the Science Center and beyond in establishing Bentley Systems as the leading provider of software for the design, engineering, construction and operations of the world's infrastructure.
